

## TENTH GOING TO ARIZONA

## Regiment Will Be Transferred to Forts Huachuca and Apache.

Second Cavalry, Now at Fort Bliss, Texas, Coming to Fort Ethan Allen, Where It Was Stationed Some Years Ago.

The Tenth United States Cavalry, which has been at Fort Ethan Allen since July of 1930, will be changed, probably in December or January, to Fort Huachuca and Apache, Arizona. Eleven troops will be stationed at the former post and one at the latter. The Second Cavalry, which relieved the Third at Fort Ethan Allen when the fort was young, will return here under the command of Col. Frank West and the 1st of officers contains a few who are well known to Burlingtonians.

The information that the Tenth would be ordered away was received by Colonel Grierson in a telegram from the acting head of the cavalry division in Washington. It announced that orders would be issued ordering the regiment to Arizona. A telegram to another office announced that the Second Cavalry, which is now at Fort Bliss, Texas, would be sent here. The Fifteenth will go to Fort Bliss and the Fifth, which is now at Fort Huachuca and Apache, will relieve the Fifteenth at Fort Sheridan, Michigan and Leavenworth.

The Tenth Cavalry arrived at Fort Ethan Allen July 26, 1930, after three years of service in the Philippines, and this is the first eastern post at which that regiment has ever been stationed since it was organized in 1865 at the close of the Civil War. Its first commanding officer was Benjamin Grierson, father of the present colonel. No cavalry unit in the army has seen more action since that time. During all of the Indian troubles the regiment was in the field of action and in the later days it has done good work in the Philippines and in China.

## TRANSFER OF REGIMENTS.

## Tenth Cavalry Going and Second Cavalry Coming for Physical Reasons.

(From the Army and Navy Journal.) Orders have been issued for the relief of two regiments now stationed on the Texas border. The 10th Cavalry goes from Fort Ethan Allen to Arizona, for duty on the border, with station at Fort Huachuca, relieving the 5th Cavalry. The 15th Cavalry, from Fort Meyer, Fort Sheridan and Fort Leavenworth, relieving the 2d Cavalry at Fort Bliss, Texas, and in New Mexico, for patrol duty along the border. The chief of staff decided to recommend this transfer of troops to the secretary of war owing to the fact that the 2d and 15th Cavalry, which are to be brought to eastern stations from active service along the Mexican border, have had the longest foreign and tropical service in Cuba, the Philippines, Porto Rico and Hawaii. He also is anxious to station these regiments in higher latitudes so that the officers, men and horses may get into the physical condition for field training. The 2d and 15th Cavalry will be assembled next summer in the cavalry camp of instruction for the same character of work that the 10th and 11th did during the past summer. Both of the regiments ordered to the frontier have been at eastern stations for the past five years and are well equipped for service on the border. Incidentally, this transfer indicates the policy of the war department to establish permanently a camp of instruction at Winchester for a brigade of Cavalry. It is planned to send another brigade to Winchester next summer to fill out the brigade. The 10th Cavalry, now stationed at Fort Ethan Allen, will probably be selected.

Orders for the movement of the Cavalry regiments which are to be stationed at stations with those on the border have not been issued. Commanders of regiments have been advised that orders will be issued for the movement with a view to allowing them to make arrangements for change of stations. Unless such orders are issued there will be no movement before November 1 or 15. Accordingly to tentative plans, the 15th Cavalry will be the first to leave its stations, going by rail to relieve the 3d at Fort Bliss, Texas. The 2d will go by rail to its new station at Fort Ethan Allen, and the 10th will then leave Fort Ethan Allen for the Mexican border. It has not been decided whether the 10th and 15th will be sent by all rail route or taken by transports between New York and Galveston, as transports must come North for the 10th before taking the 5th to the stations now occupied by the 15th. The economy of this route is questioned. It may be cheaper to make the transfer entirely by rail. Headquarters, band and one squadron of the 5th Cavalry will be stationed at Fort Meyer. The stations for the other units of the 10th will be arranged by the commander of the regiment.

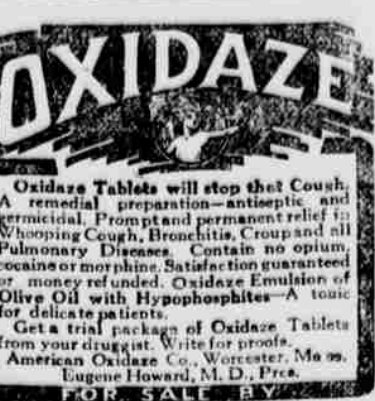

## LONG SERVICE ENDED.

## Sergeant T. W. Jordan Retired after Thirty Years' Duty.

Sergeant Thomas W. Jordan, quartermaster sergeant of the quartermaster corps and stationed at Fort Ethan Allen, Thursday received his honorable discharge after 30 years of service and will go in a few days to Washington, D. C. His retirement pay is \$67.50 per month, and he will receive this from Uncle Sam until his death. Jordan has a remarkable record and since his youth nearly all of his time has been spent in the army service of the United States. He enlisted in Washington, D. C., February 7, 1882, and was at that time assigned to the 10th Cavalry, which was coming Indians on the plains. He almost immediately transferred to the West, the officer in charge of the recruits being Col. C. H. Grierson, then a second lieutenant and just beginning his career in the army. The colonel of the regiment was Brig. Gen. Grierson, father of the present colonel. Another officer who was commanding his career at that time, and who afterwards attained rank, was Col. T. W. Jones, who was a first lieutenant.

Jordan's first enlistment was for five years and nearly that entire time was spent in Indian campaigns. Geronimo was then loose and the regiment was kept busy with army branches all over Arizona and surrounding country. The next enlistment was in the 12th Cavalry, which was stationed in Montana. One enlistment in the Infantry was enough, for one month was of 30 miles to the Rocky mountains over unbroken country.

After the expiration of that enlistment, he broke his service until 1895 and then went into the 9th Cavalry, where he took a competitive examination and was made a quartermaster sergeant of the quartermaster corps. This position he has since held. In all of his service in the Philippines and on the plains he escaped injury, except from horse kicks, etc.

## LAVIGNE ACQUITTED

## Court Holds That No Credit Sale Was Made

A former Lavigne was acquitted Thursday afternoon in city court of the charge that he had made a credit sale of goods to the corner of Battery and College streets. Judge Palmer held that in order to make a credit sale the minds of both parties must meet and arrange the conditions of the sale and the evidence in the case tended to show that there was no such arrangement. The examination showed also that there was no intention on the part of Lavigne to make a credit sale in respect to the sale of liquor on credit.

## FIRE SET IN FOUR PLACES

## Destruction of Cottage at Queen City Park Attempted.

One Fire in Piano and Other Three in Basement—Occupants Left Only Twenty Minutes before Blaze Was Seen.

A fire of undetermined incendiary origin started in four places in the cottage known as the "Montreal" at Queen City Park Friday afternoon shortly after one o'clock, and but for the timely efforts of the fire department from this city would have resulted in the destruction of not only of this building, but of many other nearby cottages. The cottage is owned by Mrs. Louis Johnston, formerly of Montreal, and who had left the place not more than 20 minutes before the blaze was discovered. The fire was set in a piano and in three places in the basement.

John W. Coffey, who is engaged in the construction of some cement work at the south of the park, was the first to discover the fire and he notified some people for help. Chief Niles and the fire truck made the trip to the scene and the cottage's automobile arrived in four minutes. At that time the interior of the cottage was filled with a dense black smoke, which made it impossible to see a foot ahead. Chief Niles and Peter Ashline entered with the hose extinguishers and held their places in the stifling places and the truck arrived in this manner the progress of the fire was stopped and when the fire chemical was to work the fire was put out in a few minutes, although it took a good start.

On investigation it was found that the fire had been taken out of some lamps and the oil caught. The cause of the smoke leads to the belief that all was well when the fire was started. The fire, which was in the piano, resulted in the destruction of that article which was a handsome Chickering. The insurance on this is \$500 and carried in the name of H. H. Hickok. The other three fires had been started in the basement. There are three points which support the other floor and about the base of each of these was piled wood and some of the wood caught fire. The fire in the piano was the only one which was not extinguished. The fire in the piano was the only one which was not extinguished.

## ARRESTED AFTER FIRE.
